Creating a special deal for Fidelity

Last Modified on 13/02/2024 3:35 pm GMT

In Synaptic Pathways, you are able to create special deals for Providers. Provider charging structures can vary and may need to be setup differently to ensure the deal pulls through correctly.

For the Fidelity Platform, you will need to apply your special deal pricing terms under the Platform AMC 2 area. Charges under the individual wrappers will also need to be removed to ensure the figures are not duplicated in the calculations.

Navigate to your deal within **Configuration> Special Deals and Discounts> Special Deals** or create new - Creating Special Deals.

¢ [●] Configuration

 Special Deals and Discounts Assets Under Management
Special Deals
> Pathways Administration

Note: Pathways has two representations of the Fidelity platform which includes a 'No Investor Fee' version. This should be selected for illustrations where the Investor Fee is waived.

Select the special deal:

4	£550,000.00	£1,400,000.00	0.20		All

Once complete, the individual wrapper AMC's need to be changed to zero to ensure the charge is not applied twice.

Change **GIA/ISA/SIPP/PP/ID AMC** to zero as shown in the screenshots below.

Note: Fund Types ETF and External3 are specific to Fidelity standard charging structure. You do not need to alter the fund type when applying a zero to the tiers against the individual wrapper AMC.
